GCI LIBERTY REPORTS

THIRD QUARTER 2020 FINANCIAL RESULTS

Englewood, Colorado, November 5, 2020 - GCI Liberty, Inc. (“GCI Liberty”) (Nasdaq: GLIBA, GLIBP) today reported third quarter 2020 results. Headlines include⁽¹⁾:

- GCI⁽²⁾ revenue increased 11% compared to the third quarter of 2019
 - GCI Consumer revenue up 8%
 - GCI Business revenue up 13%
- GCI operating income increased \$24 million and Adjusted OIBDA⁽³⁾ up 27%
- Liquidity as of September 30th
 - \$553 million of cash and cash equivalents, including \$105 million at GCI
 - \$271 million undrawn capacity under the GCI senior credit facility

“GCI had a fantastic quarter,” said GCI CEO, Ron Duncan. “The launch of the Anchorage 5G network was a major milestone for the company and recent tests show that our wireless speeds are twice as fast as national competitors in the market. I’m particularly proud of the effort our team has made in 2020 to ensure our customers have the connectivity they need to work from home and learn from home. By providing low cost connectivity to schools across the state for low income students, GCI is helping bridge the digital divide. We are committed to doing our part to make sure that no Alaskan is left behind.”

Corporate Update

On August 6, 2020, GCI Liberty and Liberty Broadband Corporation (“Liberty Broadband”) announced that they have entered into a definitive merger agreement under which Liberty Broadband has agreed to acquire GCI Liberty in a stock-for-stock merger (the “Combination”). Additional information regarding the Combination can be found in the press release and presentation issued by GCI Liberty on August 6, 2020 which are available at ir.gciliberty.com/index.php/news-releases and www.gciliberty.com/events, respectively, and the definitive merger proxy

statement filed on October 30, 2020. GCI Liberty will hold a virtual special meeting of stockholders on December 15, 2020 at 10:30 a.m. (M.S.T.) where stockholders will be asked to consider and vote on proposals related to the Combination.

The closing of the Combination is subject to, among other things, certain regulatory approvals, including transfer of control approval by the Federal Communications Commission (“FCC”), waiting period requirements under the Hart-Scott-Rodino Act (“HSR”) and approval by the Regulatory Commission of Alaska (“RCA”). GCI Liberty and Liberty Broadband filed applications with the RCA on September 16, 2020. The RCA’s approval must become a final order before the Combination can close. The HSR waiting period expired on October 9, 2020. The FCC released public notice of approval of transfer of control on October 23, 2020, which is expected to become a final order on December 2, 2020 (subject to the absence of any applicable challenge). GCI Liberty expects the Combination to close no later than the first quarter of 2021, subject to COVID-19 related delays.

Note on COVID-19

GCI Liberty continues to monitor and assess the effects of the COVID-19 pandemic on its operations and various investments.

GCI has seen a substantial increase in network traffic since early March, with utilization stabilizing at approximately 25% greater than pre-COVID-19 levels. The network continues to perform well despite higher levels of traffic. To assist Alaskans impacted by the COVID-19 pandemic, the State of Alaska has restricted GCI and other service providers from charging late fees to or disconnecting residential customers impacted by COVID-19 until November 15, 2020. The following discussion includes the impact of GCI’s COVID-19 related offers and programs on financial results and subscriber metrics. However, the financial impact of COVID-19 was not material to GCI Liberty’s operating results in the third quarter.

GCI Liberty is in compliance with all debt covenants as of September 30, 2020. GCI’s leverage, as defined in its credit agreement, was 3.7x, versus a maximum allowable leverage of 6.5x.

Discussion of Results

Unless otherwise noted, the following discussion compares financial information for the three months ended September 30, 2020 to financial information for the same period in 2019.

a) See reconciling schedule 1.

b) A revenue generating wireless line in service is defined as a wireless device with a monthly fee for services.

c) A non-revenue generating wireless line in service is defined as a data-only line with no monthly fee for services.

d) A revenue generating cable modem subscriber is defined by the purchase of cable modem service regardless of the level of service purchased. If one entity purchases multiple cable modem service access points, each access point is counted as a subscriber.

- e) A local access line in service is defined as a revenue generating circuit or channel connecting a customer to the public switched telephone network.

GCI revenue increased driven by growth in both consumer and business revenue. GCI Adjusted OIBDA increased due to the aforementioned higher revenue, which more than offset higher selling, general and administrative expenses.

GCI Consumer

Consumer revenue grew in the third quarter with wireless, data and video revenue gains more than offsetting a decline in voice. Wireless revenue growth was due to higher plan revenue. Data revenue growth was driven by higher subscriber counts. Both wireless and data revenue generating subscriber counts also increased on a sequential basis. The increase in video revenue was driven by reclassification of the cable advertising business from GCI Business to GCI Consumer effective August 1, 2020, due to the sale of certain broadcasting assets previously owned by GCI. Excluding the impact of this reclassification, video revenue was down in the quarter.

GCI Business

GCI Business revenue increased in the third quarter as higher data revenue more than offset declines in wireless, video and voice. Data revenue increased primarily from increases in the government, health and education businesses. Video revenue decreased due to the aforementioned sale of broadcast properties during the quarter and the subsequent reclassification of cable advertising sale revenue to GCI Consumer. Voice revenue declined slightly due to fewer subscribers. Wireless revenue declined driven by lower backhaul revenue and grant revenue, partially offset by higher roaming.

Rural Health Care (“RHC”) Update

On October 20, 2020, the Wireline Competition Bureau approved the cost-based rural rates GCI applied for services provided to its RHC customers for the funding years ending June 30, 2019 and June 30, 2020. Based on historical experience, GCI anticipates that it should collect the entire outstanding amount in accounts receivable related to these two funding years, approximately \$175 million, within three to six months of receipt of the letter. The approval has no material impact on the income statement.

Capital Expenditures

Year to date, GCI has spent \$102 million on capital expenditures, excluding capitalized interest and accrued capital expenditures from 2019. Capital expenditure spending was related primarily to investments in the wireless and hybrid fiber coax networks.

Share Repurchases

GCI Liberty did not repurchase shares from August 1, 2020 through October 31, 2020. The total remaining repurchase authorization for GCI Liberty is approximately \$494 million.

- (4) As defined in GCI's credit agreement.

GCI Liberty cash was flat in the quarter as an increase in cash at GCI was offset by corporate expense. GCI cash increased as cash from operations more than offset capital expenditures. Both GCI Liberty and GCI debt were flat for the quarter.

Subsequent to quarter end, on October 7, 2020, GCI, LLC (a wholly owned subsidiary of GCI Liberty) issued \$600 million of 4.750% senior notes due 2028. The net proceeds of the offering, together with cash on hand and incremental borrowings under the senior credit facility, were used to fund the redemption of all \$450 million of GCI, LLC's 6.875% senior notes due 2025 and all \$325 million of GCI, LLC's 6.625% senior notes due 2024 on October 14, 2020 and October 23, 2020, respectively. In addition, on October 15, 2020, GCI, LLC amended its senior credit facility, which consisted of a \$241 million term loan B and a \$550 million revolving credit facility. The amendment, among other things, extended the maturity of the senior credit facility from December 27, 2023 to October 15, 2025 (provided that the term loan B is refinanced or repaid in full by April 15, 2025) and increased the aggregate principal amount of the term loan B to \$400 million.

Pursuant to an indemnification agreement, GCI Liberty will compensate Qurate Retail for any payments made in excess of the adjusted principal amount of the LI LLC Charter exchangeable debentures to any holder that exercises its exchange right on or before the put/call date of October 5, 2023. This indemnity is supported by a negative pledge in favor of Qurate Retail on the reference shares of Class A common stock of Charter held at GCI Liberty that underlie the LI LLC Charter exchangeable debentures. The indemnification obligation on GCI Liberty's balance sheet is valued based on the estimated exchange feature in the LI LLC Charter exchangeable debentures. As of September 30, 2020, a holder of the LI LLC Charter exchangeable debentures has the ability to exchange, and accordingly, the indemnification obligation has been classified as a current liability.

Important Notice: GCI Liberty (Nasdaq: GLIBA, GLIBP) President and CEO, Greg Maffei, will discuss GCI Liberty's earnings release on a conference call which will begin at 11:15 a.m. (E.S.T.) on November 5, 2020. NON-GAAP FINANCIAL MEASURES

To provide investors with additional information regarding our financial results, this press release includes a presentation of Adjusted OIBDA, which is a non-GAAP financial measure, for GCI Liberty (and certain of its subsidiaries) and GCI Holdings together with a reconciliation to that entity or such businesses' operating income, as determined under GAAP. GCI Liberty defines Adjusted OIBDA as operating income (loss) plus depreciation and amortization, stock-based compensation, separately reported litigation settlements, insurance proceeds, restructuring, acquisition and other related costs and impairment charges. Further, this press release includes Adjusted OIBDA margin which is also a non-GAAP financial measure. GCI Liberty defines Adjusted OIBDA margin as Adjusted OIBDA divided by revenue.

GCI Liberty believes Adjusted OIBDA is an important indicator of the operational strength and performance of its businesses by identifying those items that are not directly a reflection of each business' performance or indicative of ongoing business trends. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because Adjusted OIBDA is used as a measure of operating performance, GCI Liberty views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that GCI Liberty's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.
